

## Application

When assembling fibre-optic cables and cores, special tools are required. The high-quality tools are put together in the fibre-optic toolbox.

## Details

Generally, the toolbox is equipped with two removable, double-sided tool plates, a covering tool plate, and a document compartment. The essential components are a hot air blower, cross head screw drivers, Miller stand-off pliers, Claus stand-off, tube socket wrench, bolt cutter as well as consumption materials.

## Designation

Fibre-optic tool case

## Part no.

**800378**
