

MSVM-S medium voltage straight-through joint heat-shrinking type

single core

MSVM-S

Centre tension transition sleeve for connecting all single-core plastic power cables with external conductor layer up to 18/30(36)kV.

For connecting cables with differing cross-sections, conductor materials and cable designs with regard to external conductor layer and sheathing.

Properties

- safe field effect
- simple assembly
- large cross-sections
- unlimited conductivity
- immediately operational

Scope of delivery

- Packing unit: 1
- two suspensible silicon control elements
- Field effect filler tape (blue)
- thick-walled heat shrink-on tube
- copper fabric shielding
- heat shrink-on tube as an outside protection
- assembly instruction

single core
